INTENDED USE: QUALITY VERIFICATION**AND RESALE**

This report provides a high quality, well detailed Gemmologists verification for an item offered for sale. After a thorough examination the Gemmologists report describes and documents the quality of the jewellery or watches listed and provides an opinion of its current value.

For a seller it assists them to represent the item for sale with a correct description. For prospective buyers the descriptive detail informs them of the quality of the item.

If the item is sold by the current owner we recommend the report is updated to be an Insurance Valuation and to show the purchasers name. However the retail comparison cost shown on this report should provide adequate Insurance replacement cover for a period of one year from the report date.

No part of the valuing process is destructive to the article. We accept no responsibility for any future damage or future loss of parts or all of the item.

Some gemstones are treated to improve their colour and/or clarity. These treatments usually require advance gemmological laboratory testing to identify and quantify, which is beyond the scope of this report. If you are concerned about gem treatments please contact me for specific advice.
