INTENDED USE: INSURANCE

The Jewellery Valuation Centre have been engaged to provide an independent valuation report on jewellery the client wishes to list on their schedule of Insurance.

The value is the estimated cost to replace it in the market where an item of this type and quality most commonly sells in New Zealand. As insurance replacement is done through retail jewellers, in all cases the most appropriate retail market for the subject item is chosen.

For the owner this report provides a thorough description and photographic evidence so as in the event of loss an equivalent item can be priced and sourced. The values include an allowance for inflation in the coming year. The valuation is valid for a one year period and should then be updated.

BASIS OF VALUE

The following bases of value have been used in this report:

EQUIVALENT REPLACEMENT COST

This is the estimated cost to the insured to replace the item with the nearest equivalent new item from a retail jewellery store today, in NZ. It is a full retail ticket price prior to any price negotiation, store discounting or insurers discount. The nearest equivalent item may not be an accurate like-for-like replacement but should be substantially similar and would indemnify the customer.

ECONOMIC FACTORS

Economic Factors that are effective at the valuation date are:

USD:NZD \$0.590

PLATINUM NZD/OZ \$1623

SILVER NZD/OZ \$52

GOLD NZD/OZ \$4496

PALLADIUM NZD/OZ \$1701
